A workshop to learn more about the latest innovations in academic research

December 6th, 2021

Time is UTC+1 (Paris time)

14:30 *Metasurfaces for quantum optics* by **Angelo ANGELINI**

Istituto Nazionale di Ricerca Metrologica

Simultaneously at PoliTo and on [Zoom](#)

15:15 *Neuromorphic computing with memristive nano-devices*
by **Gianluca MILANO**

Istituto Nazionale di Ricerca Metrologica

Simultaneously at PoliTo and on [Zoom](#)

16:00 Break

16:15 *Data Intelligence Team: an overview* by **Rémi EMONET**

Laboratoire Hubert Curien

Simultaneously at UJM, Bâtiment des Forges and on [Cisco Webex](#)

17:00 *Applications of laser micro/nano-structuring in Astrophotonics*
by **Ciro D'AMICO**

Laboratoire Hubert Curien

Simultaneously at UJM, Bâtiment des Forges and on [Cisco Webex](#)

December 13th, 2021

Time is UTC+1 (Paris time)

14:00 *Graphene and other low-dimensional materials platforms for THz and biophotonics* by **Polina KUZHIR**

UEF, Faculty of Science and Forestry, Department of Physics and Mathematics

Presenting on [Cisco Webex](#)

14:45 *Spectral Imaging for Security* by **Pauli FÄLT and Dmitry SEMENOV**

UEF, Faculty of Science and Forestry, School of Computing

Presenting on [Cisco Webex](#)

15:30 Break

16:00 *Face biometrics: human perception vs artificial intelligence*
by **Amine NAIT-ALI**

UPEC, Laboratoire Images, Signaux et Systèmes Intelligents

Presenting on [Cisco Webex](#)

16:45 *Applications of image analysis to diagnosis, therapy and interventional planning* by **Yasmina CHENOUNE**

ESME Research Lab /UPEC, Lab. Images, Signaux et Systèmes Intelligents

Presenting on [Cisco Webex](#)

Open to all via video conference (follow the embedded links)
