❖ Future of PSRS

- The PSRS consortium plans to apply to the EMJM call in 2024 to continue the PSRS adventure
- UEF is proposed to take the lead of this project. Further discussions should define the next consortium coordinator.
- Polito will not be part of the next project. No local coordinator available to continue.
- Vilnius University have shown its interest to join the next consortium and proposes a curriculum in phase with the PSRS programme. They wait for our feedback.
- Oslo university contacted UEF and could be interested in joining too.
- UEF (Jyrki Saarinen's network) got financial supports from Finnish companies interested in the PSRS EMJMD.
- Mobilizing the PSRS alumni network will be a benefit. Alumni really want to promote the master (active on social media, especially in countries like Vietnam and India).
